The Alexander von Humboldt Foundation is organising a Virtual Humboldt Colloquium and I hereby cordially invite you to apply for participation in the event.

Virtual Humboldt Colloquium
Building Bridges, Moving Minds: The Role of the Humboldt Network
in Fostering Research Cooperation in Europe
on 23 and 24 September 2021.

With this Virtual Humboldt Colloquium, the Alexander von Humboldt Foundation aims at facilitating, renewing and deepening scientific as well as personal contacts between active Humboldt Fellows and Early Career Researchers who are planning a research stay in Germany.

This event provides a forum for presenting and discussing current research activities and future initiatives on an interdisciplinary level in parallel workshops. Humboldtians and Early Career Researchers will give short talks about their research subjects.

Additionally, you will have the opportunity to get in contact with the Alexander von Humboldt Foundation's staff and our cooperation partners who will offer virtual information booths. The conference languages will be English and German. The choice of the conference language in the respective sessions should enable all participants to interact actively.
