Dokumenty uprawniające do podjęcia studiów pierwszego stopnia

Prawo do ubiegania się o przyjęcie na studia wyższe w Gruzji mają osoby, które posiadają **świadectwo pełnego wykształcenia ogólnego (სრული ზოგადი განათლების ატესტატი – sruli zogadi ganatlebis atestati)**. Świadectwo to uzyskiwane jest po ukończeniu 12 lat nauki (do roku szkolnego 2008/2009 nauka trwała w Gruzji 11 lat).

Od 2005 r. wszystkie osoby pragnące ubiegać się o wstęp na studia pierwszego stopnia lub jednolite studia wyższe zobowiązane są zdawać Jednolite Egzaminy Państwowe (ერთიანი ეროვნული გამოცდები – ert'iani erovnuli gamotsdebi), organizowany przez Krajowe Centrum Egzaminacyjne. Na egzamin składają się testy z dwóch przedmiotów obowiązkowych oraz z jednego/dwóch przedmiotów do wyboru (zwykle związanych z danym kierunkiem studiów). Minimalne wymagania procentowe, decydujące o przyjęciu na studia, określane są przez uczelnię.

Warunkiem przystąpienia do Jednolitych Egzaminów Państwowych (ერთიანი ეროვნული გამოცდები - ert'iani erovnuli gamotsdebi) jest posiadanie przez zdającego Świadectwa o pełnym wykształceniu ogólnym.

Uzyskane w Gruzji świadectwa, uprawniające do podejmowania studiów wyższych, podlegają w Polsce uznaniu zgodnie z przepisami ustawy z dnia 7 września 1991 r. o systemie oświaty. Szczegółowe informacje dostępne są na stronie opracowanej przez Departament Współpracy Międzynarodowej Ministerstwa Edukacji Narodowej, właściwy w kwestii uznawalności świadectw: https://www.gov.pl/web/edukacja/uznawanie-wykształcenia-uzyskanego-za-granica.

Rodzaje szkół wyższych

Od 2009 r. w Gruzji funkcjonują trzy typy szkół wyższych:

1) uniwersytety (უნივერსიტეტი – universit'et'i) – instytucje szkolnictwa wyższego, mające prawo do prowadzenia kształcenia na studiach pierwszego i drugiego stopnia oraz studiach doktoranckich,
2) tzw. *teaching universities* (სასწავლო უნივერსიტეტი – sasts'avlo universit'et'i) – instytucje szkolnictwa wyższego mające prawo do prowadzenia kształcenia na studiach pierwszego i drugiego stopnia,
3) koledże (კოლეჯი – k'oleji) – instytucje szkolnictwa wyższego mające prawo do prowadzenia kształcenia tylko na studiach pierwszego stopnia.

Nadzór nad większością uczelni sprawuje gruzińskie Ministerstwo Edukacji i Nauki, choć zdarzają się wyjątki: uczelnie wojskowe podlegają Ministerstwu Obrony, szkoły kształcące pracowników policji – Ministerstwu Spraw Wewnętrznych, a uczelnie teologiczne – Patriarchatowi Gruzji.

Studia krótkie

Od 2007 do 2010 r. w Gruzji oferowane były krótkie programy studiów o charakterze zawodowym, trwające od 2 do 3 lat (120-180 ECTS), które kończyły uzyskaniem tytułu **Dyplomowanego Specjalisty**

(დიპლომირებული სპეციალისტი – dip'lomirebuli sp'etsialist'i). Warunkiem wstępu na studia krótkie było posiadanie świadectwa o pełnym wykształceniu ogólnym, a ich absolwenci mieli możliwość kontynuacji kształcenia i uzyskania w skróconym trybie dyplomu ukończenia studiów pierwszego stopnia (Bachelor) lub studiów jednolitych.

Tytuł Dyplomowanego Specjalisty był również nadawany osobom, które nie ukończyły studiów pierwszego stopnia, ale zrealizowały przynajmniej połowę programu tych studiów.

Dyplomowany Specjalista nie ma swojego odpowiednika w polskim systemie edukacji i z tego względu nie podlega w naszym kraju formalnemu uznaniu. Po przyjęciu kandydata na studia wyższe pierwszego stopnia polska uczelnia może zaliczyć na ich poczet zajęcia zrealizowane w trakcie trwania ww. programu kształcenia. Zaliczenie zajęć następuje na zasadach określonych w regulaminie studiów.

Studia pierwszego stopnia

Studia pierwszego stopnia trwają co najmniej 4 lata (240 ECTS) i kończą się uzyskaniem **dyplomu Bachelor (ბაკალავრის დიპლომი – bak'alavris diplomi)**. Dyplom ten daje w Gruzji prawo do wstępu na studia drugiego stopnia.

Stwierdzenie równoważności dyplomu Bachelor z jego polskim odpowiednikiem jest możliwe w drodze nostryfikacji na podstawie rozporządzenia Ministra Nauki i Szkolnictwa Wyższego z dnia 28 września 2018 r. w sprawie nostryfikacji dyplomów ukończenia studiów za granicą oraz potwierdzania ukończenia studiów na określonym poziomie.

Zgodnie z art. 326 ust. 2 ustawy z dnia 20 lipca 2018 r. – Prawo o szkolnictwie wyższym i nauce, jeżeli dyplom potwierdzający ukończenie za granicą studiów pierwszego stopnia daje prawo do kontynuacji kształcenia na studiach drugiego stopnia w państwie, w którego systemie szkolnictwa wyższego działa uczelnia, która go wydała, uprawnia on w Rzeczypospolitej Polskiej do kontynuacji kształcenia na studiach drugiego stopnia.

UWAGA: Zgodnie z art. 160 ww. ustawy, na studia podyplomowe mogą zostać przyjęte jedynie te osoby, których dyplomy potwierdzają w Polsce posiadanie wykształcenia wyższego na podstawie art. 326 ust. 1 lub których dyplomy zostały uznane w oparciu o przepisy o nostryfikacji.

Studia drugiego stopnia i studia jednolite

System boloński

Studia drugiego stopnia trwają co najmniej 2 lata (120 ECTS) i kończą się uzyskaniem **dyplomu Master (მაგისტრის დიპლომი – magist'ris diplomi)**. Wstęp na nie mają posiadacze dyplomu Bachelor, wymagane jest również zdanie wspólnych egzaminów magisterskich (საერთო სამაგისტრო გამოცდები – saerto samagistro gamotsdebi). Kształcenie jest połączeniem nauki oraz pracy własnej studenta.

Dyplom Master daje w Gruzji prawo do wstępu na studia doktoranckie.

Studia jednolite trwają 5-6 lat (300-360 ECTS) i od roku akademickiego 2005/2006 powadzone są tylko na kierunku lekarskim, dentystycznym i weterynaryjnym. Ich absolwenci otrzymują odpowiednio **tytuł dyplomowanego lekarza (დიპლომირებული მედიკოსი – dip'lomirebuli medik'osi), tytuł dyplomowanego lekarza dentysty (დიპლომირებული სტომატოლოგი – dip'lomirebuli st'omat'ologi)** lub **dyplom Master of Veterinary Medicine (ვეტერინარიის მაგისტრის დიპლომი – vet'erinariis magist'ris dip'lomi)**. Od 2017 r. oferowane są również programy studiów jednolitych na kierunku nauczycielskim, prowadzące do uzyskania **dyplomu Master of Education (განათლების მაგისტრის დიპლომი – ganatlebis magist'ris dip'lomi)** – choć studia te można realizować także w systemie dwustopniowym.

Dyplomy ukończenia studiów jednolitych są równoważne z dyplomami ukończenia studiów drugiego stopnia (Master) i dają w Gruzji prawo do wstępu na studia doktoranckie.

System przedboloński

Do 2005 r. roku uczelnie gruzińskie oferowały na różnych kierunkach możliwość kształcenia się w systemie studiów jednolitych (trwających 4-5 lat, a w przypadku medycyny – 6 lat) i uzyskania tzw. **dyplomu Specjalisty (სპეციალისტის დიპლომი – sp'etsialist'is dip'lomi)**.

Dyplomy studiów jednolitych, trwających co najmniej 5 lat, są równoważne z dyplomami ukończenia studiów drugiego stopnia (Master) i dają w Gruzji prawo do wstępu na studia doktoranckie.

Zgodnie z art. 326 ust. 2 ustawy z dnia 20 lipca 2018 r. – Prawo o szkolnictwie wyższym i nauce, jeżeli dyplom potwierdzający ukończenie studiów za granicą daje prawo do kontynuacji kształcenia na studiach drugiego stopnia lub ubiegania się o nadanie stopnia doktora w państwie, w którego systemie szkolnictwa wyższego działa uczelnia, która go wydała, uprawnia on w Rzeczypospolitej Polskiej do kontynuacji kształcenia na studiach drugiego stopnia lub do ubiegania się o nadanie stopnia doktora.

Stwierdzenie równoważności dyplomu Master, dyplomu Specjalisty oraz dyplomów potwierdzających w Gruzji ukończenie studiów jednolitych z ich polskimi odpowiednikami, jest możliwe w drodze nostryfikacji na podstawie rozporządzenia Ministra Nauki i Szkolnictwa Wyższego z dnia 28 września 2018 r. w sprawie nostryfikacji dyplomów ukończenia studiów za granicą oraz potwierdzania ukończenia studiów na określonym poziomie.

UWAGA: Zgodnie z art. 160 ww. ustawy, na studia podyplomowe mogą zostać przyjęte jedynie te osoby, których dyplomy potwierdzają w Polsce posiadanie wykształcenia wyższego na podstawie art. 326 ust. 1 lub których dyplomy zostały uznane w oparciu o przepisy o nostryfikacji.

Studia trzeciego stopnia (doktoranckie)

System boloński

Studia doktoranckie trwają w Gruzji co najmniej 3 lata w trybie dziennym (min. 180 ECTS) i kończą się uzyskaniem dyplomu doktorskiego (დოქტორის დიპლომი – Dokt'oris dip'lomi) oraz **stopnia Doktora (დოქტორის აკადემიური ხარისხი – dokt'oris ak'ademiuri khariskhi)**. Wstęp na nie mają

posiadacze dyplomu Master lub dyplomu ukończenia studiów jednolitych. Uczelnie mogą również określić dodatkowe warunki przyjęcia kandydatów.

Stopień Doktora (დოქტორის აკადემიური ხარისხი) jest obecnie jedynym stopniem naukowym nadawanym w Gruzji.

System przedboloński

Do jesieni 2006 r. w Gruzji nadawane były dwa stopnie naukowe: niższy – **Kandydat nauk (მეცნიერებათა კანდიდატის ხარისხი – metsnierebata k'andidat'is khariskhi)** i wyższy – **Doktor nauk (მეცნიერებათა დოქტორის ხარისხი – metsnierebata dokt'oris khariskhi)**.

W wyniku reform związanych z wprowadzeniem w Gruzji systemu bolońskiego, kształcenie prowadzące do uzyskania niższego stopnia naukowego Kandydata nauk przekształcone zostało w studia doktoranckie prowadzące do uzyskania stopnia Doktora (დოქტორის აკადემიური ხარისხი), natomiast stopień Doktora nauk został całkowicie wycofany. Uznaje się, że nadawany w przeszłości stopień Kandydata nauk oraz nadawany obecnie stopień Doktora spełniają te same akademickie standardy.

Wszystkie wyżej wymienione stopnie naukowe mogą być uznane za równoważne z ich polskimi odpowiednikami w drodze nostryfikacji, w oparciu o rozporządzenie Ministra Nauki i Szkolnictwa Wyższego z dnia 28 września 2018 r. w sprawie nostryfikacji stopni naukowych i stopni w zakresie sztuki nadanych za granicą.

Skala ocen

4.4. **Grading scheme and grade distribution guidance:**

Until 2005 the student's knowledge was evaluated according to the following system: "Excellent" "Good", "Satisfactory", "Unsatisfactory", "Pass", and "Fail".

A relevant department was responsible for identifying the number of scores according to which a specifi discipline was assessed.

A student was evaluated in accordance with the following principle:

Maximum Amount of Scores %	Evaluation	Classification of Evaluation
85% and more	"Excellent"	Positive
70%-84%	"Good"	Positive
50%-69%	"Satisfactory"	Positive
Less than 50%	"Unsatisfactory"	Negative
50% and more	"Pass"	Positive
Less than 50%	"Fail"	Negative

Since 2005 the student's knowledge is being evaluated according to the following system: "Excellent" "Very good", "Good", "Average", "Satisfactory", "Unsatisfactory" and "Totally unsatisfactory".

The Student is evaluated in accordance with the following principle:

Scores	Evaluation	Classification of Evaluation
91-100	"Excellent"	Positive
81-90	"Very good"	Positive
71-80	"Good"	Positive
61-70	"Average"	Positive
51-60	"Satisfactory"	Positive
41-50	"Unsatisfactory"	Negative
0-40	"Totally unsatisfactory"	Negative

Since 2008 the student's knowledge is being evaluated according to the following system: "Excellent", "Very good", "Good", "Satisfactory", "Sufficient","Could not Hand" and "Fail"

A student is evaluated in accordance with the following principle:

8. INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

8.1. Access and admission to a higher education institution:

Georgiâ has the three-cycle higher education system.

- The right to be admitted to the first cycle of higher education (Bachelor's degree programmes) at a higher education institution can be enjoyed only by a holder of general education state certificate (starting from 2008-2009 academic year the study period is 12 years) or a person equalised thereto. The precondition for the admission to a Bachelor programme is successful taking of the unified national examinations (starting from 2005).
- The right to be admitted to the second cycle of higher education (Master's degree programme) at a higher education institution can be enjoyed by a person having, at least, Bachelor's or equalised thereto academic degree. The admission precondition is successful taking of Master's examination.
- The right to be admitted to the third cycle of higher education (Doctorate) at a higher education institution can be enjoyed by a person having, at least, Master's or equalised thereto the academic degree. The admission preconditions are generally set by the higher institution.

8.2. Higher Education institutions

Since 2009 there are the following types of higher education institutions in Georgia:

College – Higher education institution that offers only the first cycle – Bachelor's degree programmes.

Teaching University – Higher education institution that offers higher education programme/programmes (except for doctorate). A teaching university is obliged to provide the second cycle – Master's degree programme/programmes.

University – Higher education institution that offers the higher education programmes of all three cycles and carries out research activities.

A higher education can be a legal entity of both public and private law.

8.3. Qualifications

In 2005 the three-cycle academic higher education system was introduced in Georgia. Since 2007-2008 academic year all the higher education institutions of Georgia are committed to this system. It is necessary to accumulate the respective amount of credits for the accomplishment of each cycle of higher education.

The first cycle – Bachelor's degree programme – at least 240 ECTS credits

From 2007 until 2010 there was a certified specialist's educational programme (vocational higher education) within the framework of higher education, which covered 120-180 ECTS credits. The students were admitted to these programmes commensurate with the procedure, envisaged by Georgian law, against a general education certificate. In the case of enrolment of a certified specialist for a Bachelor, Medical Doctor's/ Doctor in Dentistry educational programmes the higher education institution is entitled to recognise the ECTS credits, accumulated by the certified specialist concerned, for the purposes of acquisition of the Bachelor's, Medical Doctor's/ Doctor in Dentistry Degrees.

A higher education institution is entitled to award an interim qualification to a student in the case of taking only a part of the educational programme (in the case of accumulation of ECTS credits envisaged for the short cycle within the first cycle educational programme). An interim qualification can be awarded after the attainment of the learning outcomes envisaged for a part of the respective educational programme, which cannot be less than the half of the net amount of ECTS credits envisaged for the educational programme concerned (from 1 September 2010).

The second cycle: Master's degree Programme – at least, 120 ECTS credits

10

Suplement do dyplomu Master (strona 5 z 6)

The third cycle: Doctorate – at least, 180 ECTS credits

Medical/Dental education programme is a one-cycle higher education programme. A successful graduate of the programme is awarded the Medical Doctor's/ Doctor in Dentistry academic degree. The academic degree awarded after the accomplishment of 360-credit Medical Doctor's or 300-credit Doctor in Dentistry educational programme is equalised to Master's degree.

The higher education institutions admitted students to Veterinary Education Programme inclusive 2011-2012 academic year. This is a one-cycle educational programme covering 300 ECTS credits and leading to awarding the Doctor in Veterinary academic degree. The Doctor in Veterinary academic degree is equalised to Master's degree.

8.4 Grading System

Starting from 2007, all the higher education institutions of Georgia use the European Credit Transfer and Accumulation System (ECTS). The attainment of the learning outcomes by a student, envisaged by the educational programme is evaluated according to 100-point grading scale.

8.5 Quality Assurance System

Educational quality is enhanced through internal and external mechanisms. The internal mechanisms of educational quality enhancement are implemented by an educational institution in accordance with the procedure, envisaged by law. The external mechanisms of educational quality enhancement are the authorisation and accreditation – the procedures, implemented by the Legal Entity of Public Law – National Centre for Educational Quality Enhancement.

Authorisation is the procedure of acquisition of the status of an educational institution, which aims at ensuring the meeting of standards, necessary for an educational institution to carry out educational activities for the issuance of the state-recognised educational document.

Accreditation is the procedure of establishment of the compatibility of an educational programme with accreditation standards, which procedure aims at the introduction of regular self-evaluation for the improvement of educational quality and promotion of the enhancement of quality assurance mechanisms. Allocation of state funding and the implementation of regulated (law, medical, pedagogical) programmes is also related to this process.

The authorisation and authorisation is granted for a period of 5 years. After the expiry or withdrawal of authorisation the accreditation is also withdrawn.
